SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

SPILL: 15-7045, Tanker Fire, Lake Elsinore, Riverside County

- On 12/01/15 at 1408 hours, Riverside County Environmental Health called the California State Warning Center (CSWC) to advise that a tanker truck was on fire on I-15 in Lake Elsinore, Riverside County.
- There was no reported impact to the ground and there was no reported impact to any waterways.
- The tanker had a capacity of 8,700 gallons and the gasoline was allowed to burn off.
- I-15 was closed on both North and South lanes for approximately 2 hours. As of 12/02/15 at 0500 hours, all lanes are open.
- There was no threat to the community or public.
- The CSWC made all notifications per the Hazardous Materials SOP.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- The weather system coming in on Thursday expected to be warmer and drier than the previous few systems, but could still impact travel across the Sierra with snow and in the valley with rain.
- Compared to last year, the total water stored in the Sierra snowpack was up at the end of November. Unfortunately all areas are still running below average for this time of year.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An active weather pattern will bring periods of rain to the region this week with the best chances for rain in Humboldt and Del Norte counties. A strong storm system may bring gusty winds to Northwest California mid to late week. Temperatures will be several degrees warmer this week as compared to this past weekend.

Medford Weather:

A front has moved inland this morning and is now roughly along the cascades. Rain will be diminishing to showers on much of the west side this morning. Snow is changing to rain in the cascades as snow levels rise this morning. East of the cascades, cameras show that snow is changing to freezing rain and then rain from west to east as temperature warm. It is still cold enough over Modoc County for a little more substantial freezing rain before it warms up this morning. Winter weather advisories remain in effect in these areas through mid-morning.

Reno Weather:

High pressure will produce valley inversions and reduced air quality again today. A modest winter storm will bring gusty winds and mountain snow Thursday and Thursday night, with light rain and snow for lower elevations. The main storm track will stay over the Pacific Northwest for the weekend with light showers remaining mainly north of I-80 Sunday. Temperatures near average will rise to above average Sunday.

San Francisco Weather:

Warming temperatures through Wednesday the next cold front arrives Thursday morning in the North Bay. Breezy winds and precipitation will be focused over the greater San Francisco bay area with lesser amounts over the Monterey Bay area on Thursday with seasonal temperatures on Friday and Saturday. A weak system brushes the North Bay on Sunday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Showers are possible today across far Northern California with some sprinkles possible this morning as far south as about interstate 80. The next main storm system arrives Thursday afternoon with wet and windy weather. Snow will be likely over the mountains Thursday into Friday with possible travel delays.

Hanford Weather:

Another pacific weather system is expected to move into California on Thursday. This storm will bring a chance for precipitation Thursday afternoon through Friday. High pressure will return for the weekend.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Seasonably warm and dry conditions will continue today. A trough of low pressure will pass overhead Thursday bringing increasing clouds a brief cool down and the chance of light showers North of Point Conception. Generally warm and dry conditions are expected to return this weekend and remain into early next week.

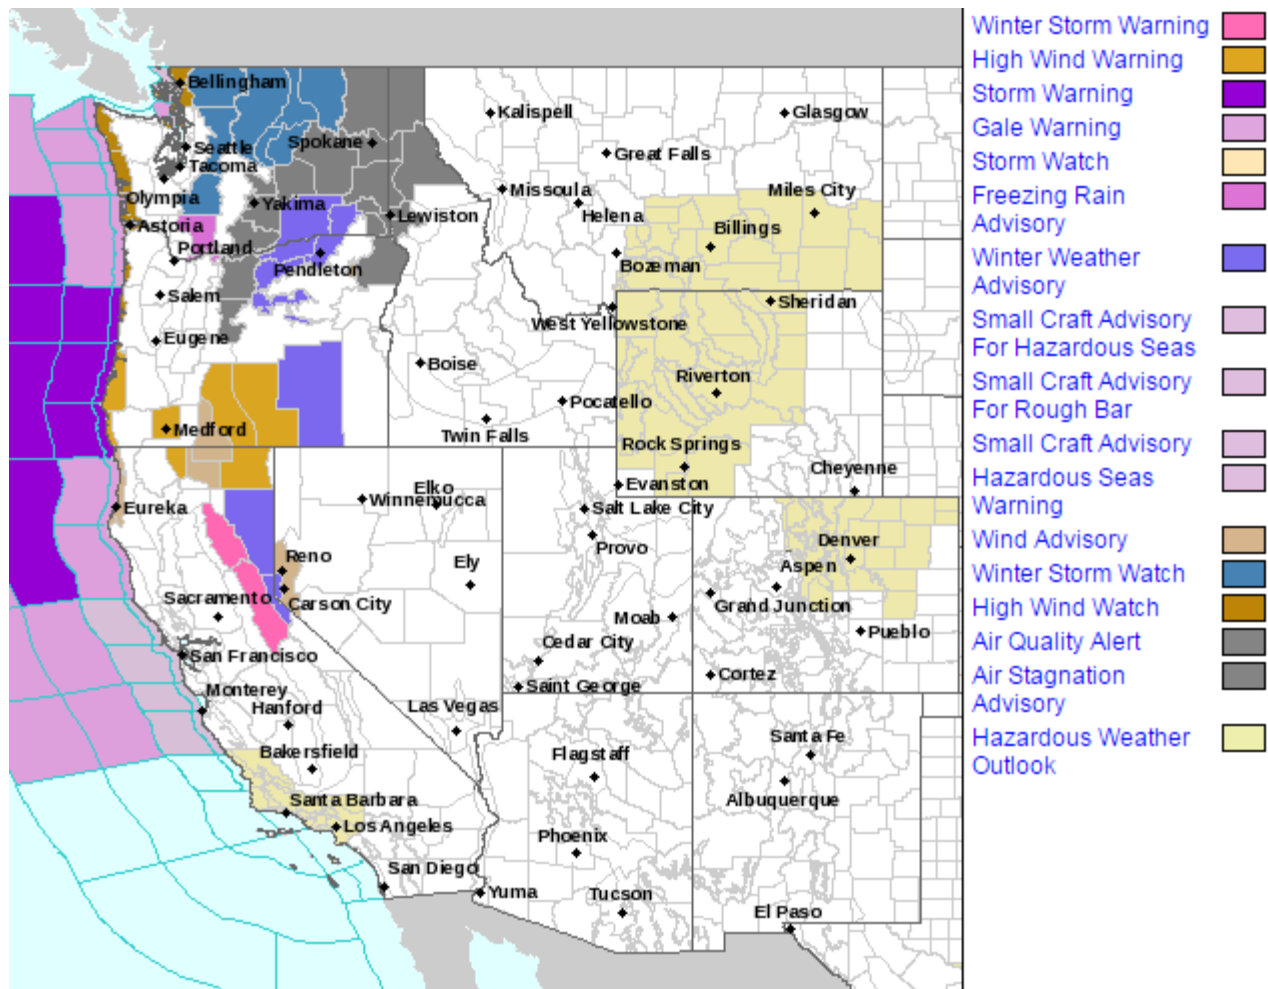

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Building high pressure aloft will bring fair and warmer weather through Thursday. Cooler Friday as a weak trough passes to the north bringing onshore flow and a brief return of the marine layer with fair and warmer temperatures again over the weekend through early next week.

Southeast California Weather:

High pressure ridging building into the desert southwest from the west will bring mainly sunny skies and a warming trend to the region through the rest of the work week with above normal temperatures expected for Thursday and Friday. After a brief cool down during the upcoming weekend as low pressure passes well off to our North warmer temperatures will then return for the early part of next week as high pressure once again builds into the region.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 29 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).

CAL OES MISSIONS

New/Closed Cal OES Missions

- **2015-LAW-20213, 12/1/2015 @ 1600 hours** - Air Force Rescue Communication Center (AFRCC) notified Cal OES of a PLB activation in Los Angeles County, Redondo Beach. Unregistered PLB was believed to be located within a Hotel complex and was stationary based on AFRCC satellite information. LDO contacted Los Angeles Sheriffs Department (LASD) regarding the activation. AFRCC later determined the initial activations (X3) were accidental based on several additional passes (X3) with no signal detection. LDO advised LASD of the cancellation. **Mission Closed.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
